

Pouches

High Performance Options to
Protect your Sterilised Products

Medical Device
Packaging

Nelipak Healthcare Packaging, one of the most trusted packaging suppliers to the healthcare industry, has a pouch solution for your medical device, pharmaceutical or diagnostic product. Whether you need a breathable paper, DuPont™ Tyvek® packaging materials or high-barrier foil, we have your solution. Our extensive product offering and manufacturing facilities manage risk and assure reliable supply for your medical and pharmaceutical packaging.

All Nelipak Healthcare Packaging facilities have been certified to ISO 13485 and operate in compliance under FDA cGMP standards. ISO 13485 specifies requirements for quality management systems in which organisations demonstrate the ability to provide medical devices and related services that consistently meet both customer and regulatory requirements.

We are one of the world's most diversified pouch suppliers, with Class 7 or greater cleanroom pouch production environments in Europe. Combining our extensive offering of pouch materials, unique converting know how and capabilities, Nelipak Healthcare Packaging can satisfy all of your sterile packaging pouch requirements.
